

Mouse Monoclonal Antibody to SIV_{MAC251} p27

ABL, INC.

IgG is purified by affinity chromatography on Protein A Sepharose

Catalog Number: 4323

Quantity: 100 µg

Isotype: IgG1

Immunogen: Solubilized SIV_{MAC251} viral proteins

Reactivity:

- Reacts with SIV_{MAC251} p27 in ELISA and immunoblots
- Does not react with HIV-1_{IIIB} and HIV-2 proteins
- Use 5 µg per assay in immunoblots

* Determined using BCA Protein Estimation (Pierce Biotechnology, Inc., Rockford, IL). ABL does not guarantee equivalent protein concentration results with other assay methods.

This product does not contain sodium azide.
